BARCODE LEGAL SERVICES LLP
ALIGNED FOR EXCELLENCE

WELCOME

Dear Prospects,

It is our pleasure to present services including but not limited to Contract Management, Corporate Compliance, and Governance, Legal and Regulatory Compliance, Intellectual Property, Open Source Licensing, Legal Research with several customized packages that will lower the cost of some of your corporate's/firm's legal services.

While Barcode Legal Services LLP is a relatively new entrant to the legal outsourcing market, our founders are highly qualified and experienced attorneys who have been working in the LPO industry and Techno-legal space for a long time. We aim to develop Barcode as a specialized legal services company and a trusted ally and provide premium services to our clients and partners.

Our scope of services includes Contract Management, Corporate Compliance and Governance, Legal and Regulatory Compliance, Intellectual Property, Open Source Licensing, and Legal Research.

With the highest global standards and local expertise., Barcode LLP aims to provide valued, practical, and strategic legal solutions to help clients achieve their goals.

We look forward to hearing from you and collaborate.

Sincerely,
Barcode Legal Services LLP

ABOUT THE COMPANY

In our age of connectivity and digitalization, gaps related to traditional work systems and collaboration have been bridged. This enormous transition has caused a large-scale redistribution of services across these boundaries as companies leverage the most cost-effective and efficient means of conducting their businesses. The concept of 'outsourcing' has emerged as a result of this global change and legal services outsourcing is a mainstay.

Almost one-third of the legal cost of a company or a law firm in today's times gets depleted on tedious, redundant, and repetitive work along with highly engaging and complex legal services. Barcode LLP adds strategic value to your firm by providing fully managed legal services and staff augmentation as it acts as your "Offshore Virtual Extended Legal Department". This value is enhanced through our client-friendly and transparent pricing models.

The Barcode team includes meritorious, experienced, and highly talented legal and paralegal professionals. We induct the best attorneys in the industry and organize continuous training programs in accordance with the codes of professional conduct and ethics so that our attorneys remain at par with global standards of legal operations. Our attorneys keep themselves abreast with the latest law, amendments, and developments in the legal arena and are highly self-motivated. Our attorneys are also well-versed in the Global Legal System, particularly of US and European countries. Our commitment towards our clients and to finding the best legal solutions remains unparalleled. We begin by allocating a dedicated team to each client for a strong personalized client relationship and also to ensure quality, efficiency, and consistency.

We have packaged legal assistance both day-to-day as well as transactional under an umbrella at a pre-agreed, fixed fee. Since every business requirement is unique, we have customized services to meet a variety of such demands. This approach has allowed us to bring transparency and integrity to our services, thus, helping us to benefit our clients. We seek competence and quality performance as our personal and professional pursuits.

Barcode LLP has the appropriate human skills required to fully support the legal processes efficiently, and guarantee steady legal assistance in every aspect of your business processes in a cost-effective way.

SERVICES LINE UP

Contract Management Services

Contracts are the foundation of any business as close to 90% of business transactions are governed by contracts. These contracts are crucial to any organization as they contain vital details of an organization's relationships with its partners, suppliers, customers, and also with its employees. As the organization expands and grows, these contracts keep getting increasingly voluminous and complex, making it formidable for any organization to fully manage, negotiate and track the agreements that impact their business.

Although almost every organization has an in-house legal department, it has generally been seen that the in-house legal departments often spend most of their propitious time on contract reviews rather than committing themselves to more strategic or core operational work. Contract Management Services are meant to help firms in absolving their teams from monotonous administrative tasks which can consume as much as 40% of their time. The Contract Management Services also ensure that you get services from those who are particularly skilled and competent in responding to specific legal demands.

Barcode can effectively support your organization by undertaking diverse roles wherein we deliver a wide range of services including analyzing your drafts, preparing standard templates, identifying the variables relevant to a contract, and creating a checklist of key clauses which may be useful in managing specifications and obligations of each agreement.

Services

- Contract Drafting, Red-Lining, Negotiation, and Execution
- Contract Abstraction & Summarization
- Post Execution Contract Administration
- Contract Migration
- Contract Audit
- Gap Analysis with Standard T&C and Clauses Contract Summarization Services
- Pre-Merger Due Diligence Support Services
- Post-Merger Integration Support Services
- Miscellaneous Administration Services

Global Regulatory Compliance Management

Today's business landscape is a completely altered one with frequent changes in laws, rules, and regulations demanding greater insight, knowledge, and engagement. Increased scrutiny by regulatory authorities has made it imperative for businesses to closely monitor their business practices and ensure regulatory compliance. Regulatory compliance means that an organization adheres to laws, regulations, guidelines, and specifications relevant to its business processes. Violations of regulatory compliance regulations often result in unsolicited risks and formal enforcement action, including hefty fines. Just not that, non-compliance acts also affect a company's integrity in the eyes of the customers and other stakeholders.

More and more companies today focus on enterprise risk management to effectively identify, evaluate, and manage various risks that can affect the company's profitability in any of its processes. By leveraging the right blend of people and processes we, at Barcode LLP, help our clients to identify, manage and control regulatory compliances. Our outcome-focused approach enables you to navigate through complex structures of law without withholding you from expanding your business into new and emerging avenues.

Services

- Legal Inventory Management Services
- Regulatory Mapping and Gap Analysis
- Regulatory Change Management Services
- Regulatory Research
- Multi-Jurisdictional Survey
- Regulatory Compliance Audit
- Regulatory Reporting's Management Services
- Litigation Support
- Secondment/Staff Augmentation

SERVICES LINE UP

Intellectual Property Services

Increasingly, IP law firms and corporations need to evolve their practice and maximize every growth opportunity to adapt to a fast-changing world and respond to an increasingly competitive IP legal market in our times of global connectivity.

Through IP consulting services, Barcode aligns our clients' IP strategy with their business. We identify areas for significant improvement in the business results of the organization through changes or improvements in their IP processes. We also help our clients to register, manage and protect their existing IP. Our legal team has vast experience in handling IP-related matters including registration of trademarks, drafting licensing agreements and representations.

With this, we also help our clients develop global portfolios that strongly position the client in the international market.

We are a dedicated group of qualified and trained attorneys who believe that proper legal counsel and expertise can positively influence the growth of your business, so we remain focused on improving the services and processes that our clients offer to various stakeholders, and the way they run their practice. It is our professed objective to enhance profitability for our clients and redefine their competitive position on the global platform.

Services

- Prior Art Search
- Patentability Analysis
- Patent Infringement & Analysis
- IP Due Diligence & IP Audit
- Trademark and domain name searches and clearance

General Counsel / In-House Legal Services

Since the business environment, today has become dynamic and fluid, companies have to face increased legal, compliance, and regulatory challenges no matter what their size, nature of work, or practice area. Larger companies typically meet these challenges by employing an in-house general counsel or a team of attorneys on a full-time basis to provide steady legal support to the company. However, for many businesses, this may not be a viable option.

Most often, companies realize that the cost of hiring full-time, in-house attorneys/lawyers to provide expert advice regarding commercial transactions, corporate governance, employment matters, dispute avoidance and resolution, Intellectual Property, regulatory compliance, and many other legal matters turns out to be exorbitant. Additionally, companies usually suffer from high expenses when they engage a law firm on an hourly basis.

Barcode LLP Is Here to Help -

We are a team of highly qualified and well-trained attorneys with experience in providing clients various business services including those related to start-up, acquisitions, compliance, managing IP, and contract drafting and review. Our team provides outside general counsel services/in-house legal services on a fixed fee/retainer basis.

Services

- Advice on day-to-day functioning and operation in the company
- Draft, review, negotiate key contracts, Services/solutions agreements, EULA, vendor/partner relationship agreements, etc.
- Assistance with regulatory compliance, and processes
- Draft and review privacy policies, terms of use, and other technology-related matters
- Legal research work

SERVICES LINE UP

Legal Research and Analysis

Legal Research and analysis is about identifying and retrieving information crucial to support legal decision-making and to respond to specific legal questions pertaining to products, services, or processes. With business laws becoming more stringent, there is an increasing need for firms to procure regular counsel from legal experts to ensure enterprise risk management and regulatory compliance. Legal research has become indispensable to the credibility and profitability of any business today and needs to be closely supervised by experienced researchers, eminent jurists, and efficient lawyers.

Armed with a team of legal experts, lawyers, and paralegal professionals, Barcode provides unmatched legal research services to clients belonging to a wide range of industry verticals. We have a highly qualified and well-trained team of attorneys who are competent at keeping track of the latest law amendments within common law jurisdictions; developing processes through inquiry and scrutiny; finding case-specific clauses, and understating and applying the various nuances profitably and ethically. Since our inception, we have been assisting domestic and overseas clients efficiently and with dependability with our specialized legal research services.

Legal research and analysis is a critical skill that demands great patience and time, making it troublesome for organizations to find quick solutions in time-bound set-ups. Outsourcing research projects often proves inexpensive and less tedious for organizations that choose to outsource. Rather than being specialized in a fixed practice area we, at Barcode, have constantly striven to become legal experts with diverse skills-sets so that we can execute any legal outsourcing with great care and precision. We make use of creditable legal research methods to make sure the quality of our work is always the best.

Services

- Pre/post-litigation assisted research
- Federal or State legislation for Corporate compliance assistance
- Case law research and analysis
- Analyze Regulations, Treaties, Conventions, International Agreements, etc.

Open Source Program Office (OSPO) as a Service

Barcode is pleased to offer our Open Source Program Office (OSPO) as a service. This unique offering renders legal advisory and guidance on all facets of open source usage for inbound and outbound transactions. OSPO as a Service enables clients to use our services as and when required without having the need to hire a full-time attorney. We know that all businesses have different requirements and needs at different times so our services are budget flexible and delivered with utmost commitment and care. We strive to understand an organization's customized needs and offer a wide range of open source advisory subscription packages that clients can choose from to suit their specific requirements.

Our mission is to help our clients capitalize on the strategic, technological, and financial benefits of open source software while minimizing risk and inefficiencies. Our attorneys are proficient in handling any legal issues arising from open source software use and in managing risks caused by the wide-ranging use of OSS. We appropriately align our strategy with your legal requirements through our knowledge, experience, and proactive approach towards problem-solving and remediation.

Our team includes Attorneys, software programmers, IP practitioners, and software licensing professionals.

Services

- Open Source Governance Assessment
- Open Source Policy Formation
- Open Source Governance and Management Services
- Open Source Advisory
- Open Source Education
